I am looking for people who can correctly add products to my Paper Shredder Review site.

The development site is here: [Paper Shredder Reviews](#)

It is not difficult to add items there are several steps that you need to pay attention to:

- Correctly adding the Title
- Getting the Item Summary from the Manufacturers website or Amazon
- Add the correct images
- Correct Meta Description and Keywords

Sign up for an account at the paper shredder site and then contact me through the digital point forums or PM for which items to add. The register link is in the right hand column.

Please pay attention to detail. Bonuses are paid for those who follow instructions and have no edits that I do need to make. If you do make a mistake email me with the correction. If you email me the correction it will not count against you. How to enter Paper Shredder Info Product information:

1. Adding the Title:

Follow this form

{Manufacturer} {Model} {number or sheets} {type strip cut, cross cut, micro cut} Paper Shredder

Example:

Aurora AS882C 8 Sheet Cross cut Paper Shredder
 Ativa DQ120D 12 Sheet Diamond Cut Paper Shredder
 Fellowes Powershred MS-460Cs 10 Sheet Microcut Paper Shredder

Remove any extra information and non standard character TM and copywrite symbols ®

It is very important to get the Title Correct. If you have the title correct then you can cut and paste this information into the Meta Description and add the word review, same for meta keywords.

2. Adding the Amazon ASIN Number
 If the shredder is at amazon list the ASIN number

3. Adding the Product details
 These values should come from the manufacturers website. If you can not find the manufacturers website use Amazon.com

4. Adding Item summary:
 Price: Enter the Manufacturers List price. If you get the price from amazon use the highest price they have listed.

5. Adding the Images:
 Copy and paste the manufacturers product information from the manufacturers website. This should be one to two paragraphs of text.

6. Adding the Meta Description:
 Upload the large image from the manufacturers website or Amazon.com. If there is more than one image please upload all the images.

7. Adding the Meta Keywords:
 Enter the value for title and add review to the end

Example:

Aurora AS882C 8 Sheet Crosscut Paper Shredder Review
 Ativa DQ120D 12 Sheet Diamond-Cut Paper Shredder Review

Take the meta description and put commas between the words add any other words you feel might be appropriate

Example:

Aurora, AS882C, 8, Sheet, Crosscut, Paper, Shredder, Review
Ativa, DQ120D, 12, Sheet, Diamond-Cut, Paper Shredder, Review

8. Click Submit

If you have missed any information you will be prompted for that info.
